HAND-POURED IN FRANCE RECYCLABLE: Pure original perfume from Grasse - France (the birthplace of perfume). Easy to Clean: the wax cleans up easily with hot water and soap. Once cleaned, the porcelain containers can be used as: jewellery box, cotton holder, cotton buds holder or can be refilled.

ECO-FRIENDLY: Candles made with 100% pure Vegetable Wax (without any paraffin wax). Paraffin wax in a petroleum product (processed in oil refineries) and discharges carcinogens into the air.

SCENTED CANDLES INSTRUCTIONS: Burn candles within sight. Never leave a burning candle unattended. Keep out of children and pets' reach. Burn candles on a heat-resistant surface, even and stable, in a ventilated area but away from drafts. Do not touch or move while burning or if wax is hot. Discontinue use when 5 mm of wax remains in bottom. Do not burn longer than 3 consecutive hours. Keep wick centred and trimmed to 5 mm. Extinguish any candle that smokes excessively. Remove all paper and plastic from the candle before burning. Place candles at a safe distance from flammable objects. Do not use water to extinguish the flame. If you burn more than one candle, give to each of them their own space in order not to heat the area too much. Store candles in a cool, dry place. Never place near a heat source nor direct sunlight. Never use aerosol spray near a candle. Do not eat – Inedible. In case of ingestion consult a doctor.

HOME FRAGRANCES INSTRUCTIONS: The Villari Home fragrances diffuser will permeate your home with a superb fragrance. 1. Simply open the refill and insert the fragrance oil into the porcelain diffuser. 2. Insert the wooden sticks into the bottle so that they absorb the fragrance oil. 3. The scented oil is drawn up the wooden sticks and gradually diffused into the room. 4. After a few hours this will fill the room with a beautiful bouquet. This gives you continuous, beautifully balanced fragrance. For best results the wooden sticks should be turned over twice a week. Depending on the heat of the room and how often you turn over the wooden sticks, your home fragrance should last about 2/3 months.

WARNING!
Not for personal use. Do not spray on the skin. Do not drink – Non-potable. In case of ingestion consult a doctor. Keep out of children and pets' reach. Use only in ventilated rooms. Keep your fragrance in a cool and dry place. Always keep the refills tightly closed, away from direct heat and sunlight. Avoid contact with eyes and skin. If eye contact occurs, rinse with water. If irritation persists, contact a doctor. Do not spray on or permit contact with fabrics, or painted or finished surfaces. Do not use for other purpose than that indicated. Use this refill only with a VILLARI Home Fragrance Diffuser.

HOME FRAGRANCE

PERFUME MADE IN GRASSE

VILLARI

The interest aroused by natural products concerns the world of essences. The 100% natural Villari perfumes, in fact, replace the classic fragrances that derive from chemical processes that involve the use of products derived from petroleum. Villari perfumes do not contain alcohol but only oil-fragrances that are extracted from plants, shrubs and flowers. These products are made by master perfumers in Grasse in France, the home of perfume.

ECO FRIENDLY WAYS TO GIVE YOUR HOME A PLEASANT SCENT

The fragrances used are natural and completely free of additives or dyes. In our perfumes, no elements that are potentially harmful to humans and no chemicals are used. Villari perfumes use all natural ingredients and blends of pure essential oils... and they smell absolutely delicious! The alcohol-free formulation is designed to maximize the long-lasting effect of the scent. Our natural fragrances are made through the use of natural elements such as: lemon, jasmine, wood, cedar, cinnamon, spices, cloves, amber, bergamot, incense, patchouli, fig blossom, fig milk, cinnamon, red apple, caramel, apple pie, vanilla, leather, tobacco, almond, butter and caramel.

ECO-SUSTINABLE PRODUCT AND PACKAGING FOR FRAGRANCES

When the perfume based on natural extracts is consumed to the last drop, the bottle that contained it is thrown in the garbage and is not easy to recycle. Generally these are plastic bottles that cannot be reused and for this reason they contribute to swelling our landfills and dispersing, in the form of micro-particles, into the environment. Villari is sensitive to the issue of respect for the environment and has therefore thought of elegant porcelain containers that will never pollute because they are destined to be reused forever. For this reason perfumes are evolving in an eco-sustainable key with the production of bottles that exploit the characteristics of natural elements such as porcelain, glass, brass and even cork. The use of ecological raw materials for the manufacture of packages and packaging does not take place to the detriment of the aesthetic aspect, indeed those mentioned are very flexible materials that are suitable for this type of market.

Amalfi offers one of the most unique sceneries in the world: set like an amphitheatre overlooking mountains and sea, encircled by the green of the palm trees and by the warm colour of lemons and oranges. A honeymoon in Amalfi is an absolute must, unquestionably one of the most beautiful natural coastlines in the world. Villari reinterprets it in this delicate Fragrance. Essences: Lemon, Jasmine.

This Fragrance is an invitation to experience the atmosphere of Portofino: exclusive and fashionable resort on the Italian Riviera, famous for its picturesque harbour and for being the favourite destination of celebrities. Portofino offers a perfect natural microcosm with a blooming vegetation. Essences: Amber, Bergamot, Patchouli, Incense.

Taormina is an exclusive, high-class destination on the east coast of Sicily, frequented by artists, writers, aristocrats and celebrities. Taormina's climate is a dream, its position, perfect panoramas, monuments and luxurious fauna are admired by everyone who goes there. This Fragrance expresses all the natural essences, the antique atmospheres and splendours. Essences: Fig Flowers, Milk.

Capri is an island in the Tyrrhenian Sea, rich in natural beauties as well in archaeological and artistic treasures, able to attract amazing crowds of tourists. Popular meeting point for the international jet set and best known for the Blue Grotto, the Faraglioni (the stacks) and its unequalled flora and fauna. Capri Fragrance expresses all the magic and unique atmospheres. Essences: Wood, Cedar, Spices, Cinnamon, Cloves.

Filtre d'Amour is an inebriating fragrance with notes that evoke the fresh night air and the comforting warmth of leather. The Fragrance has a surge of cedar softened by the sweetness of Cinnamon to evoke the emotion of the night. A composition of fresh aromatic-woody-spicy perfume, a true love potion. All in a stylish diffuser, covered with crocodile skin, with an exotic touch as the particular exclusive Fragrance. Essences: Cedar, Cigar, Leather, Vanilla.

Passion Eternelle is a Fragrance with passionate and gentle notes. It represents all the love that Villari has for the Eastern world and finds inspiration in the brilliant literary echoes of the novel "The Thousand and One Nights". An universal Fragrance for lovers that recalls the timeless passion of patchouli, amber and vanilla; a scent that will turn your nights into the magical atmosphere of the beautiful Scheherazade. All in a stylish diffuser that evokes the ancient decorations of the arabesques ofmosaues, palaces and domes in the world of dreams. Essences: Patchouli, Amber, Vanilla.

Rêve d'une Princesse is a Fragrance with sweet Notes; an olfactory creation dedicated to women. Villari considers every woman as a princess to whom it dedicates this dream: almond milk in a diffuser that looks decidedly reatro, thanks to the refined design "couture". The fragrance has a harmonious balance of aromas evoking the freshness of almond and vanilla. Essences: Almond Milk, Almond, Vanilla.

Villari creates a fragrance that will make us relive the emotions of a Secret Love. The sensual scent awakens the sublime moments of the first love: a secret whisper, offered in a tenacious and unobtrusive perfume, which causes intrigue and desire. All presented in a holder with a sensual lace decor. Essences: Red Apple, Caramel, Apple Pie.

The Chantilly fragrance is inspired by the traditional French patisserie. The Chantilly cream has been invented by Francois Vate, maître d'hôtel at the Château de Chantilly (France) in the 17th century. At that time, the château de Chantilly was a symbol of refined cuisine and the appointment of Gastronomic Delights for the nobility. This whipped cream is beaten until it is light and fluffy. The Chantilly Cream is sweetened and flavoured with vanilla. A charming collection which brings back childhood memories with the best homemade grandma cake recipes. Essences: vanilla, caramel and butter

ROMA: Fiery Pink Pepper

A fragrance with bright, pungent and powdery notes, a tribute to the historic city of Rome. Pink Pepper is made from the berries of false pepper, a plant native to the Mascarene Islands off Madagascar. Used since ancient times for its medicinal properties, it is characterized by an olfactory profile that is simultaneously sweet, pungent and lively. The spicy character of the pink berries of Pink Pepper creates a sophisticated and refreshing ambience, perfect for spice lovers.

FIRENZE: Coastal Cypress & Sea Fennel

When the balsamic and woody notes of the cypress and the spicy scent of sea fennel meet, they give life to a fresh and sparkling fragrance. The essential oil of the cypress is obtained from the needles and the younger branches of the plant. It is frequently used in perfumery and herbal medicine for its calming and toning properties, while the penetrating and emollient quality of sea fennel promotes relaxation. A refined composition that recalls the fresh notes of summer, inspired by the elegance and charm of the many Tuscan landscapes.

MILANO: charge Black Pepper

Milan, city of design and fashion, is represented by the pungent notes of Black Pepper, considered the king of spices. Its origin dates back more than 4,000 years ago to India, in particular to the tropical region of Kerala. Defined at the time as the Spice Garden, it immediately became one of the most loved aromas, demanded by all. Its essence has energizing, refreshing and revitalizing properties. The perfect fragrance for those who love aromatic, woody and amber notes inspired by the energy and liveliness of the city of Milan.

VENEZIA: Mesmerising Oudh Accord & Gold

Venice, city of love, is represented by the sensual fragrance of Oudh, whose name evokes the strong notes of an Oriental atmosphere. Precious essence, known since the dawn of time in different cultures and religions, is obtained from Agarwood; a dark and very aromatic resin that thickens in the trunks and roots of Aquilaria and Gyrinops species of tree. The olfactory profile of Oudh ranges from balsamic to spicy and woody characteristics and its intense, slightly sweet smell, aids in relaxation and relieves stress. A natural and exclusive scent capable of creating a romantic and welcoming atmosphere.

VIDE-POCHES & ASHTRAY

This refined collection composed by ashtrays, vide-Poches and elegant humidors is especially dedicated to all those countries where the brand VILLARI is renowned and admired. Collecting these precious creations is like travelling: graceful symbols, dignified animals and charming landscapes represent the wonders of the modern world. The travel starts from the Middle East, with three animals that embody the strength of this enchanting region: the Camel, the Arab Horse and the Saker Falcon. The Arab Horse, Al Lahab, the Thoroughbred that expresses elegance, is portrayed in all its pride, with a strong and stately posture. The next stop of this imaginary travel is Russia, the land of Czars, the homeland of splendour and elegance. VILLARI pays homage to this extraordinary country with one of its national emblem: the coat of arms of the Imperial Eagle finely reproduced and hand painted with 24-carat gold.
