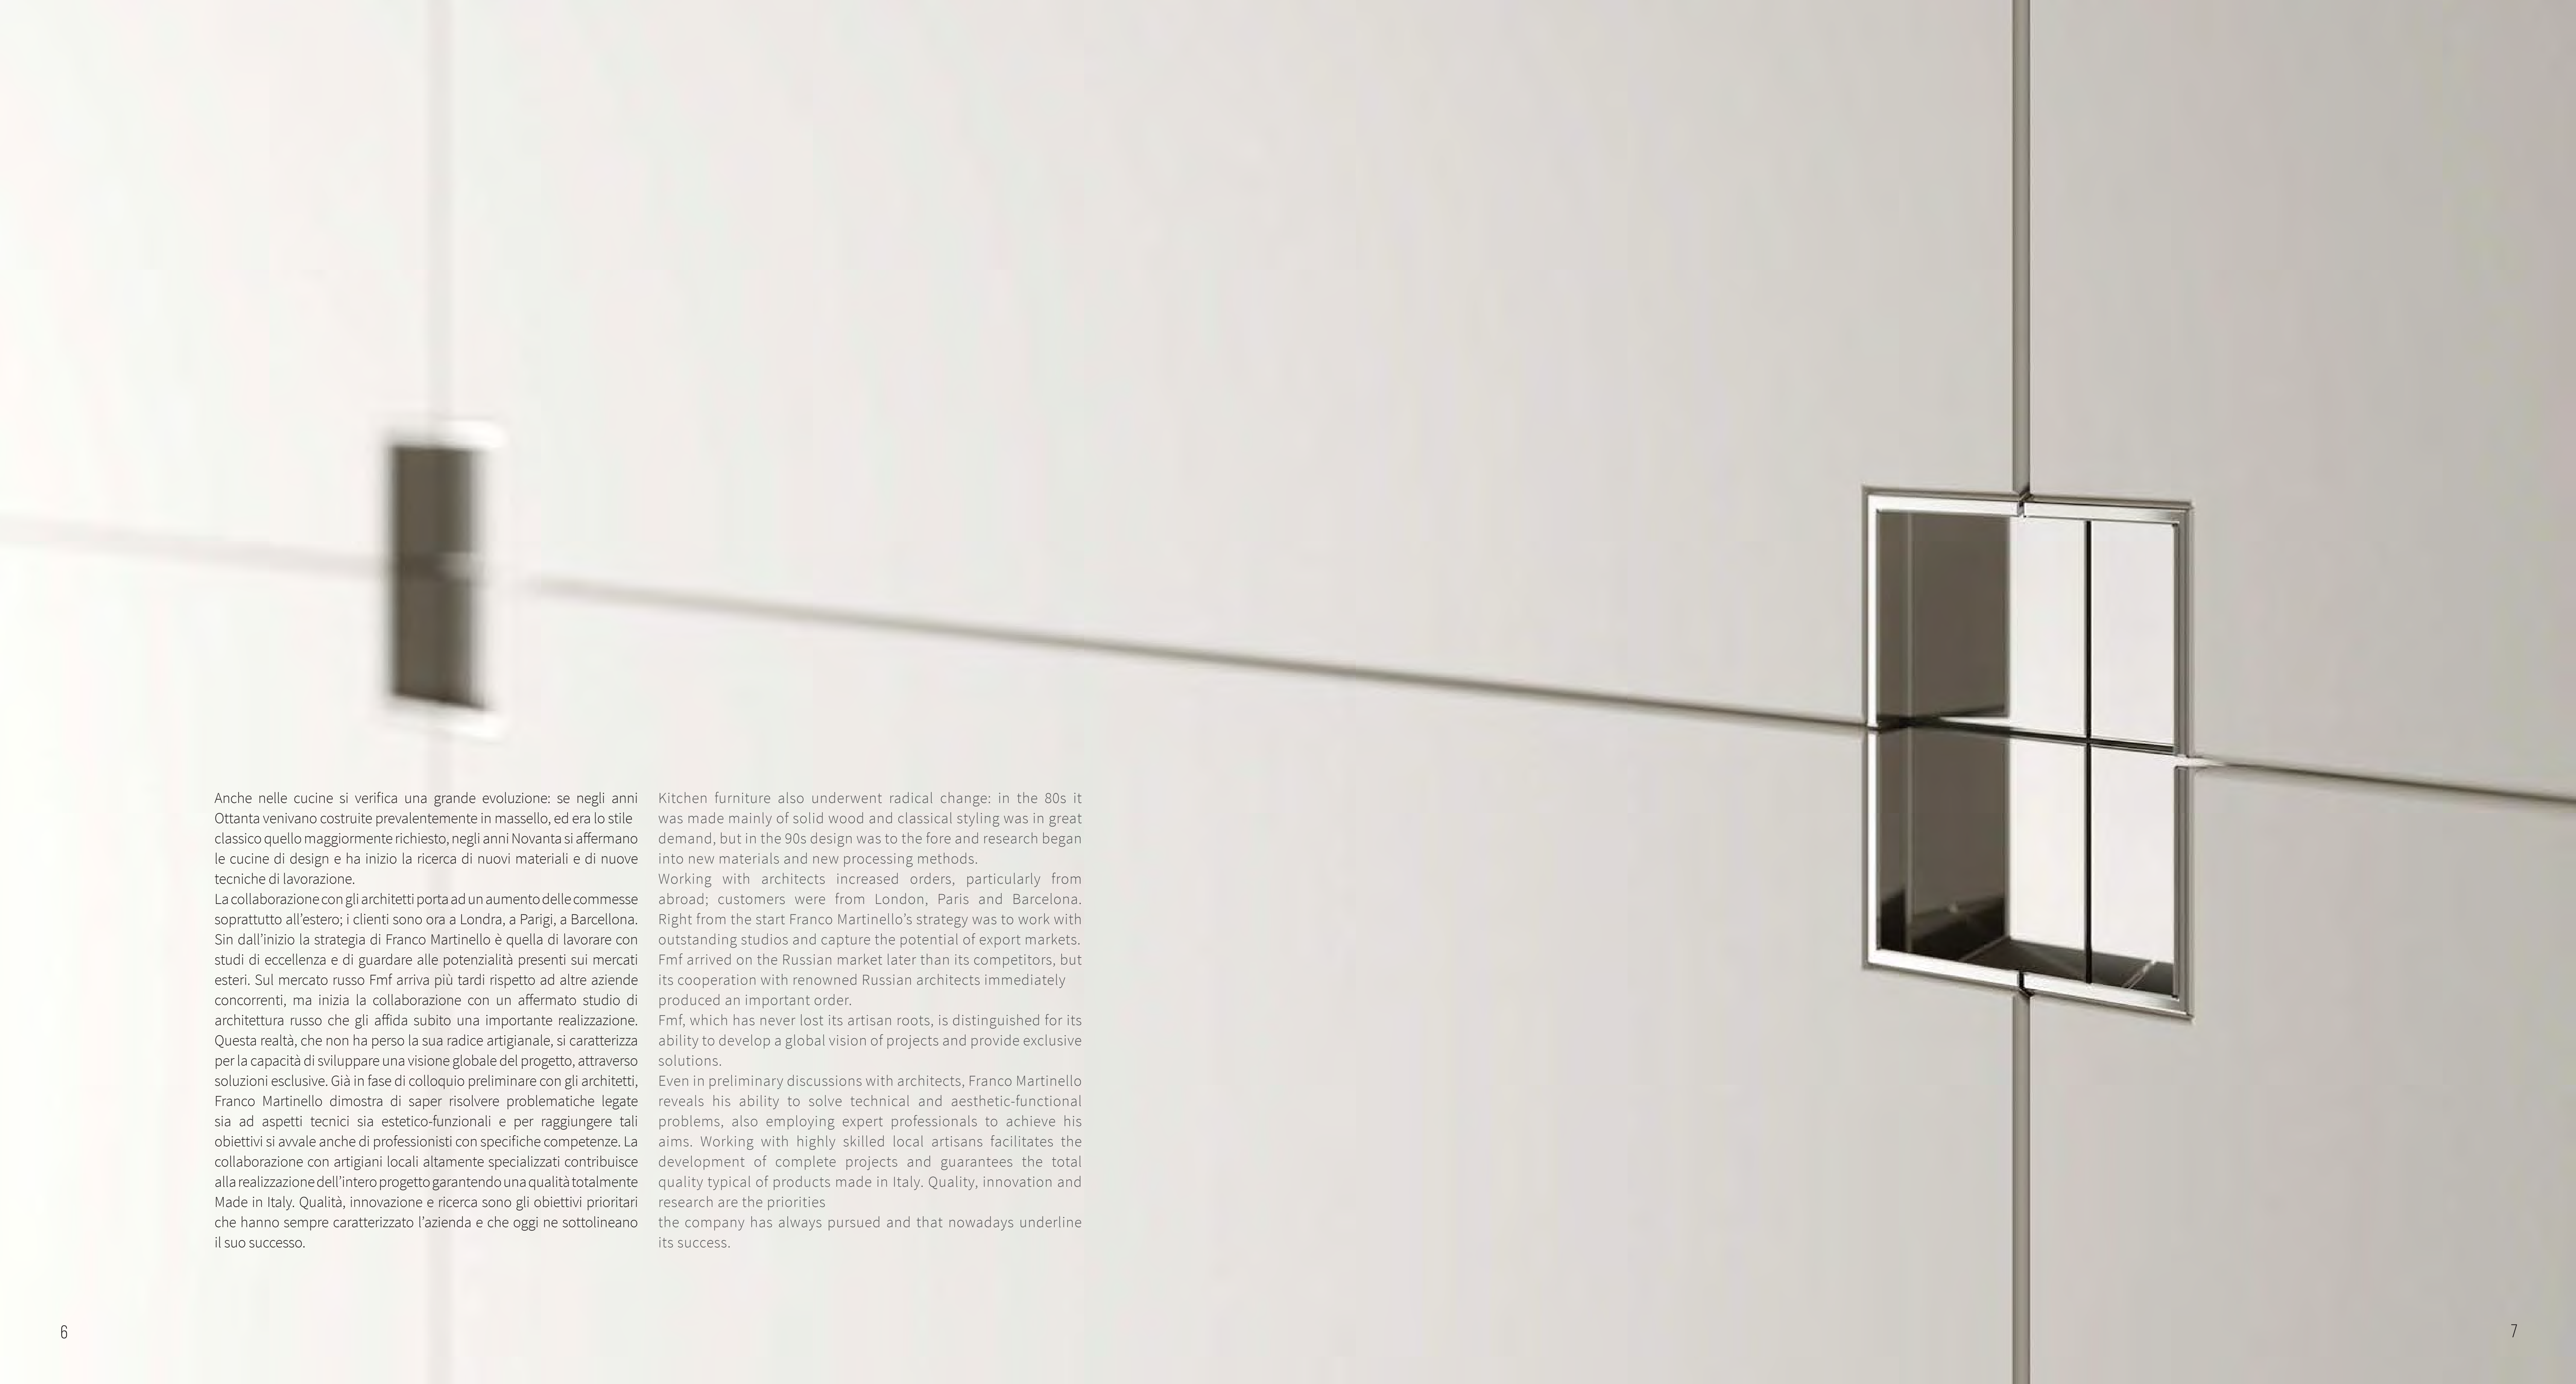
FMF FRANCO MARTINELLO: LA PASSIONE SI FA ARTE

FMF FRANCO MARTINELLO: PASSION TURNS INTO ART

Fmf Franco Martinello è un atelier di falegnameria con forti radici nella tradizione artigianale, che oggi progetta e realizza arredi totalmente su misura di elevata qualità in tutto il mondo. E’ nella storia di Franco Martinello che si comprendono le ragioni di questo successo. Egli stesso ricorda come, dopo una prima esperienza di lavoro in una falegnameria che realizzava cucine, negli anni Ottanta inizia la sua attività in proprio. L’apprezzamento per il suo lavoro porta ben presto ad un aumento della clientela. L’offerta si amplia, non più solo cucine, ma arredi completi, boiserie e soffitti. Negli anni Novanta l’evoluzione del mercato porta ad una crescita della domanda di mobili e ad una maggior importanza degli studi di design.

Franco Martinello ne intuisce subito le potenzialità presenti e capisce che gli architetti hanno bisogno di avvalersi del lavoro artigianale di falegnamerie in grado di dar forma ai loro progetti. Nascono così le prime collaborazioni con gli studi di architettura per la realizzazione di arredi completi: non solo mobili per l’arredamento ma anche tutto ciò che contribuisce a creare un’abitazione dal forte impatto emotivo. L’azienda quindi si orienta sempre più verso una clientela facoltosa lavorando su progetti per case prestigiose e di lusso. Da qui le realizzazioni di case in località esclusive in Italia e all’estero.

Fmf Franco Martinello is a woodworking atelier deeply rooted in artisan traditions, which designs and produces top quality furniture entirely made to measure and sold throughout the world. Franco Martinello’s story reveals the reasons for his success. After his first work experience in a company that made wooden kitchen furniture, he began his own enterprise in the 80s. His work was much appreciated and he soon increased his clientele. He extended his pr oducts to include not only kitchen furniture, but also complete decor, boiserie panelling and ceilings. In the nineties a changing market led to an increase in the demand for furniture and much more importance was attached to design. Franco Martinello immediately foresaw the potential of the situation and realised that architects would need skilled woodworkers to bring their projects to life. This led to his first cooperation with ar chitects’ studios in order to product complete decor: not just furniture but also everything that helps to create an exciting home. The company became increasingly oriented towards prosperous customers, working on projects for prestigious luxury homes, many of which in exclusive locations in Italy and abroad.



Anche nelle cucine si verifica una grande evoluzione: se negli anni Ottanta venivano costruite prevalentemente in massello, ed era lo stile classico quello maggiormente richiesto, negli anni Novanta si affermano le cucine di design e ha inizio la ricerca di nuovi materiali e di nuove tecniche di lavorazione.

La collaborazione con gli architetti porta ad un aumento delle commesse soprattutto all'estero; i clienti sono ora a Londra, a Parigi, a Barcellona. Sin dall'inizio la strategia di Franco Martinello è quella di lavorare con studi di eccellenza e di guardare alle potenzialità presenti sui mercati esteri. Sul mercato russo Fmf arriva più tardi rispetto ad altre aziende concorrenti, ma inizia la collaborazione con un affermato studio di architettura russo che gli affida subito una importante realizzazione. Questa realtà, che non ha perso la sua radice artigianale, si caratterizza per la capacità di sviluppare una visione globale del progetto, attraverso soluzioni esclusive. Già in fase di colloquio preliminare con gli architetti, Franco Martinello dimostra di saper risolvere problematiche legate sia ad aspetti tecnici sia estetico-funzionali e per raggiungere tali obiettivi si avvale anche di professionisti con specifiche competenze. La collaborazione con artigiani locali altamente specializzati contribuisce alla realizzazione dell'intero progetto garantendo una qualità totalmente Made in Italy. Qualità, innovazione e ricerca sono gli obiettivi prioritari che hanno sempre caratterizzato l'azienda e che oggi ne sottolineano il suo successo.

Kitchen furniture also underwent radical change: in the 80s it was made mainly of solid wood and classical styling was in great demand, but in the 90s design was to the fore and research began into new materials and new processing methods.

Working with architects increased orders, particularly from abroad; customers were from London, Paris and Barcellona. Right from the start Franco Martinello's strategy was to work with outstanding studios and capture the potential of export markets. Fmf arrived on the Russian market later than its competitors, but its cooperation with renowned Russian architects immediately produced an important order.

Fmf, which has never lost its artisan roots, is distinguished for its ability to develop a global vision of projects and provide exclusive solutions.

Even in preliminary discussions with architects, Franco Martinello reveals his ability to solve technical and aesthetic-functional problems, also employing expert professionals to achieve his aims. Working with highly skilled local artisans facilitates the development of complete projects and guarantees the total quality typical of products made in Italy. Quality, innovation and research are the priorities the company has always pursued and that nowadays underline its success.

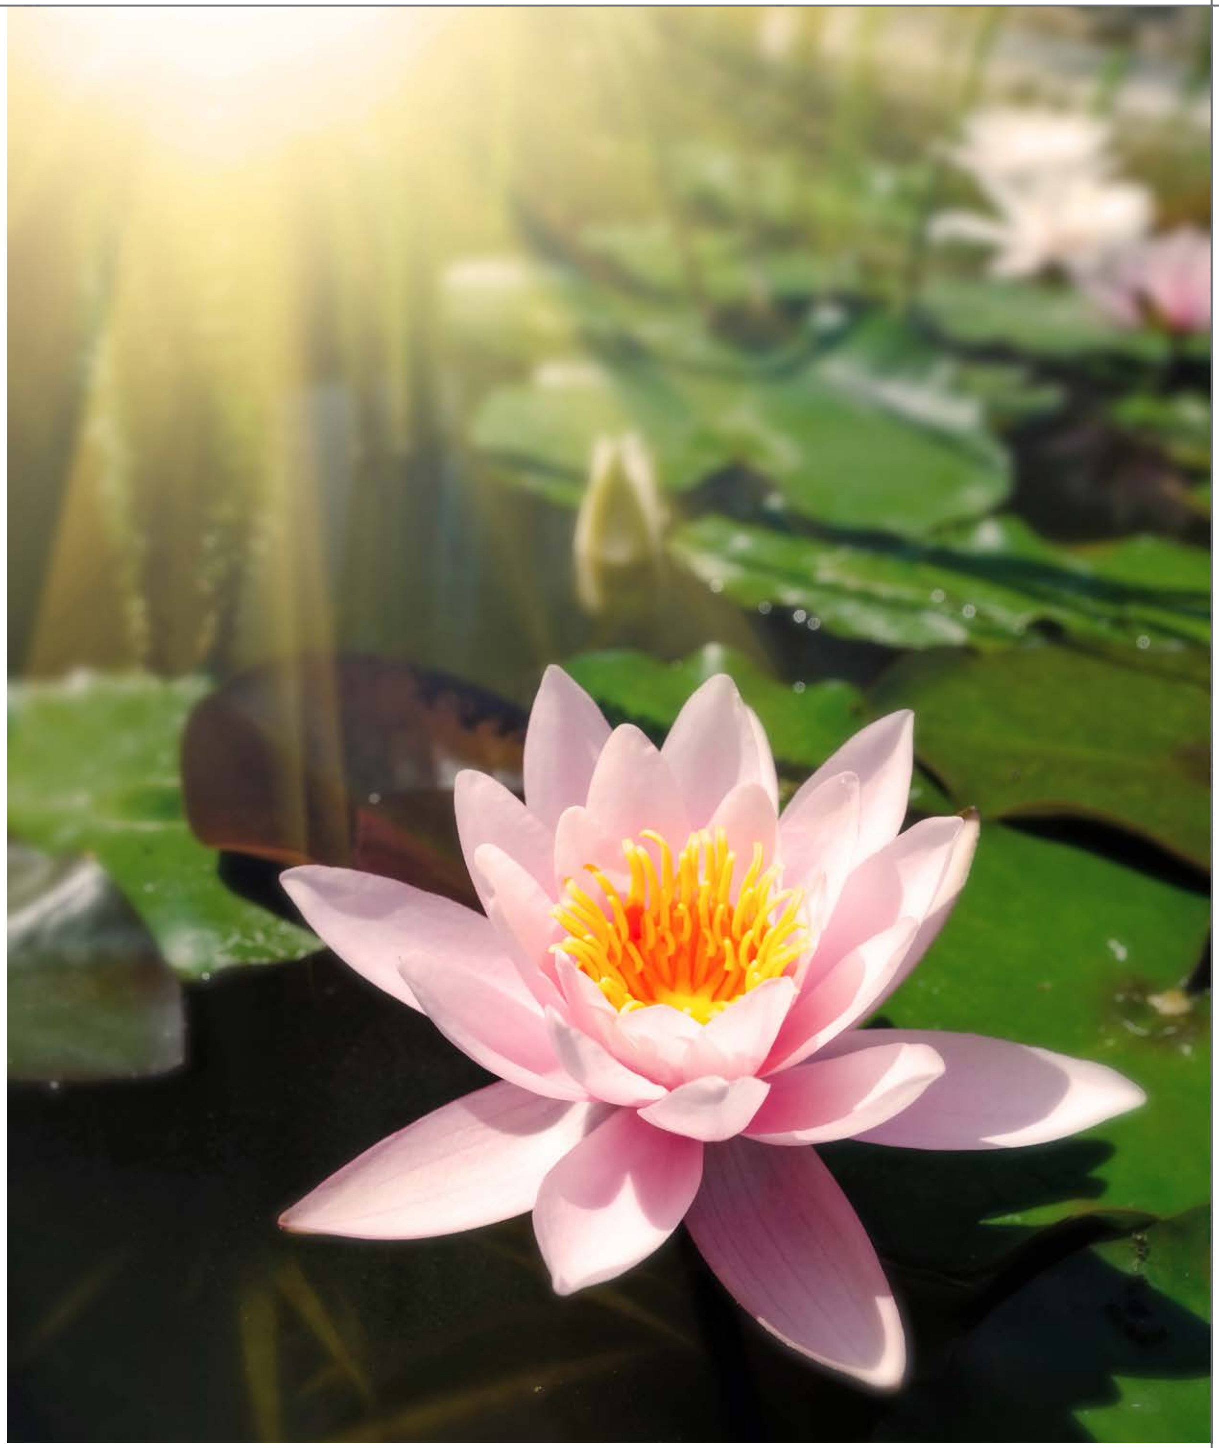
La decorazione della colonnina è un fiore di loto, gli elementi in metallo hanno finitura in oro spazzolato e vernice lucida.

The column is decorated with a lotus flower and the metal units feature a brushed gold and glossy varnished finish.

CASA CHLOÈ



CASA
CHLOÉ

Le finiture dei mobili bianco lunare e grigio lunare contribuiscono con i loro riflessi a illuminare l'ambiente in un gioco cromatico di raffinata seduzione.

The finishes for the lunar white and lunar grey units create reflections that illuminate a room with a captivating, refined colour scheme.

CONTRASTI MATERICI E SEDUCENTI EFFETTI DI LUCE

CONTRASTING TEXTURES AND ATTRACTIVE LIGHTING

L'estetica degli anni Trenta ha ispirato il progetto di questa cucina, un progetto che si esprime in un sapiente equilibrio tra funzionalità e attenzione per i dettagli.
Ogni mobile è frutto di ricerca formale e interpretazione di nuovi stili di vita. La realizzazione si caratterizza per una sapiente maestria artigianale.
Chloé è una cucina dalla forte personalità, un progetto che si ispira agli stilemi Déco.
Un ambiente cucina con accostamenti cromatici che richiamano la luce lunare con le sfumature che le sono proprie.
Delicate colonnine completano il disegno dei mobili e capitelli dorati ne sottolineano la cura costruttiva. Soluzioni formali morbide per l'isola centrale personalizzata da contrasti materici e da un piano a sbalzo con finitura perlata lucida.
Le sedute dalla seducente silhouette sono rivestite con pelle Nabuk Glam. Le maniglie che impreziosiscono i mobili di Chloé sono una perfetta espressione di art déco, maniglie dalle forme sinuose e dalla finitura satinata, un accessorio elegante ed esclusivo impreziosito da inserti swarovski.

The aesthetics of the 1930s inspire this kitchen, which combines functionality and attention to details.
Each unit is based on an interpretation of new lifestyles and distinguished by the craftsmanship of its manufacture. Chloé is a kitchen with a strong personality, a project inspired by the Déco concept of style. It features a colour scheme that reflects lunar light and its many shades. Delicate columns complete the design and gilded capitals underscore the workmanship.
Soft solutions for the centre island, which is customised by contrasting textures and an overhanging worktop with a glossy pearl finish.
The fascinating silhouette of the seating is covered in Nabuk Glam leather. The sinuous outline and brushed finish of the handles enhancing Chloé fur niture express the art déco style perfectly with an elegant, exclusive accessory highlighted by Swarovski inserts.

DESIGN, TECNOLOGIA E PERSONALITÀ CONTEMPORANEA

CONTEMPORARY DESIGN, TECHNOLOGY AND PERSONALITY

La cucina Thella si configura come spazio della funzionalità, delle tecnologiche, ma anche spazio della convivialità e del piacere della preparazione dei cibi.
La caratteristica di questa cucina è nella sua dimensione e nella linearità delle soluzioni formali che ben si integrano con un ambiente ampio e luminoso.
L'isola centrale, dalla forte personalità, ha il piano in pietra, la sua calda tonalità convive armoniosamente con lo spirito high tech dell'intera ambientazione.
Le superfici bianche sono definite da linee orizzontali create dalle maniglie d'acciaio in un gioco geometrico che è al tempo stesso rigore e funzionalità. Ogni dettaglio contribuisce ad accentuare la ricerca di forme pure ed essenziali.

The Thella kitchen provides practical, technological space, but is also an area in which to socialise and find pleasure in preparing food.
This kitchen is distinguished by its dimensions and linear solutions that integrate well in a large, luminous environment.
The central island has a stone top that harmonises with the hi tech spirit of the project.
White surfaces are defined by the horizontal lines created by the practical steel handles.

CASA
THELLA

Funzionalità, rigore geometrico e ottimizzazione degli spazi. La raffinatezza della boiserie si ripropone anche in questo ambiente, integrandosi perfettamente con un'estetica dal sapore high tech. La cucina dispone di ampi contenitori in grado di proporre un'organizzazione interna efficace e versatile apprezzata da chi ama l'ordine e la praticità.

Functionality, geometry and optimised space. Refined boiserie panelling is also a feature of this room, where it integrates perfectly with hi tech-inspired aesthetics. This kitchen includes large storage units for effective, versatile internal organisation, a feature appreciated by those who love to have a place for everything and everything in its place.

RAFFINATO DIALOGO
TRA PASSATO E PRESENTE

REFINED INTERACTION
BETWEEN PAST AND PRESENT

Linee semplici ed eleganti, una funzionalità in sintonia con la tradizione, una cucina dal sapore antico, ma in grado di risolvere le esigenze della quotidianità e rispondere a stili di vita contemporanei.

Una cucina che è piacere, luogo della preparazione dei cibi, ma anche spazio della memoria e di elaborazione di una personale arte della tavola.

Una cucina classica, senza tempo, dove la cura del particolare si esprime nella passione per il dettaglio e per la rappresentazione della massima qualità, attraverso una manualità artigianale che è perfezione e fedeltà alla tradizione. I mobili a vista mostrano ciò che contribuisce al piacere della convivialità e dell'ospitalità.

Una cucina capace di emozionare, di esprimere al meglio antichi sapori, di confrontarsi con le oscillazioni del gusto e con bisogni estetici orientati sempre più agli stilemi del passato rivisitati in chiave moderna.

Simple, elegant lines and traditional functions for a kitchen with a vintage air that meets daily needs and reflects a contemporary lifestyle.

This pleasant kitchen in which food is lovingly prepared is classical and timeless, with painstaking details that highlight the top quality of skilled craftsmanship.

Display units contribute to the pleasure of hosting guests in a kitchen where traditional flavours are enhanced.

Here taste and aesthetics reminiscent of styles from the past are re-visited in a modern key.

CASA

RICERCATA PERSONALIZZAZIONE PER UN DECÒ RIVISITATO

REFINED CUSTOMISATION FOR RE-VISITED DÉCO

Un progetto abitativo che ripropone stili e atmosfere anni Trenta: Margot è una nuova proposta per l'ambiente cucina dove l'accostamento di materiali diversi definisce soluzioni formali, memoria di un Déco raffinato e mondano.

Un gusto glamour che si esprime nella scelta di nobili essenze in contrasto con materiali lapidei e dettagli dove l'essenzialità della decorazione è ricercata personalizzazione.

La scelta dei materiali utilizzati è determinante nel definire stile ed esclusività: la preziosa essenza di eucalipto frisè, qui in versione laccato lucido, è utilizzata dopo un'accurata selezione tra i tranciati di primissima qualità.

Ad impreziosire colonne e dettagli architettonici è la pelle Nabuk con disegno stampato. Dettaglio non secondario la creazione di una maniglia dal design esclusivo, una creazione che è frutto di una attenta ricerca e che contribuisce a rafforzare la personalità di Margot.

This project re-proposes styles and atmospheres typical of the 1930s: Margot is new kitchen decor which unites different materials in a way that reminds us of refined, worldly Déco.

An air of glamour is evoked in the use of solid wood contrasting with stone and refined, customised decorations.

The materials used define style and exclusive solutions: valuable eucalyptus frisè, here glossy lacquered, is carefully selected from top quality veneers and printed Nabuk leather is used to enhance columns and architectural details.

An important detail is the exclusively designed handle that adds to Margot's personality..

RAFFINATI DECORI PER UN'ATMOSFERA DECÒ

REFINED DECORATIONS CREATE A VINTAGE ATMOSPHERE

Lo stile Art Déco ha ispirato il progetto della cucina Athena che si esprime attraverso forme essenziali dove la ricercatezza e il decoro sono sobri e in sintonia con un gusto raffinato ed elitario.

La linea guida del progetto vede protagonista la ricercata lavorazione dell'anta, con un particolare disegno creato dall'intarsio di diverse essenze pregiate: l'ebano si accosta al palissandro o all'acero. Significativo il dettaglio dello zoccolo e del cornicione sapientemente realizzati con l'inserimento di elementi di ottone su legno. Anche il disegno della cappa rivela un'attenzione in equilibrio tra funzionalità ed estetica dove un decoro geometrico si inserisce nella cornice dal profilo ottonato.

E' proprio l'ottone il protagonista discreto dell'intera composizione, ottone che conferisce luce alla cucina che vede forte la presenza di essenze scure. Estremamente ricercata la cura dei dettagli per sottolineare l'ispirazione Déco della cucina Athena: eleganti le lampade, il gioco di tavolini e sedute nello stile anni Trenta ed essenziale il disegno della boiserie. Riveste un ruolo importante lo studio della maniglia, una silhouette leggera e luminosa che unisce perfettamente funzionalità e gradevolezza estetica.

Art Déco inspires the style of the Athena kitchen project through essential design with refined decoration in tune with exclusive good taste.

The project features refined doors with a special inlaid pattern created using different types of wood: ebony with rosewood or maple.

The plinth and cornice feature brass on wood. The design of the extractor hood combines functionality and good looks with a geometric pattern on the brass edged cornice.

Brass is the star of this composition, illuminating the dark wood kitchen units. Attention to details underlines the Déco inspiration for the Athena kitchen: elegant lamps, 1930s style occasional tables and chairs and uncluttered boiserie panelling. The handle features an airy, luminous silhouette and is both practical and attractive.

IL DETTAGLIO È LUSSO ED EMOZIONE

DETAILS MAKE FOR LUXURY AND EMOTION

Spazio abitativo dalla forte personalità, dove gli stilemi classici si impongono definendo una cucina importante sia per dimensioni che per qualità esecutiva.

Una qualità che si esprime attraverso la cura del dettaglio, dell'accostamento tra materiali diversi per creare un effetto di lussuosa funzionalità.

La maestria artigianale valorizza al massimo la creatività proponendo una soluzione abitativa di grande prestigio in un costante equilibrio fra tradizione e stili di vita contemporanei.

La cucina si sviluppa orizzontalmente dove sulle basi poggiano alzate proposte sia nella versione chiusa sia a vetrina con antine all'inglese arricchite da un gioco di luci interne a led.

Ad accentuare la classicità della composizione il cornicione superiore e i capitelli delle colonne intagliati a mano; il tutto conferisce alla composizione un'elegante verticalità evocando arredamenti di dimore storiche.

La cucina è realizzata in Rovere spazzolato; l'anta a telaio presenta decorazioni intagliate e impreziosite da finiture in foglia d'argento.

Living space with a strong personality, where classical styling makes a statement to define a kitchen in which dimensions and workmanship are important.

Quality is expressed through attention to details and the use of different materials to create a practical but luxurious ef fect.

Craftsmanship enhances creativeness in this prestigious solution featuring well-balanced tradition and contemporary styling.

The kitchen develops horizontally with base units topped by elevations, closed or with mullion display windows illuminated by internal LED lights.

The classical style of the composition is accentuated by the top cornice and the hand-cut capitals on the columns; all this gives the composition vertical elegance reminiscent of the décor in stately homes.

The kitchen units are in brushed oak; the framed doors have carved decorations enhanced by silver leaf.
