

"Ogni vetro porta in sé una memoria di luce.
Questo Catalogo è il nostro modo di trattenerla, anche solo per un istante."

"Each piece of glass carries a memory of light.
This catalogue is our way of holding onto it - if only for a moment."

4.594.739.302 volte, grazie.

Questo è il numero di visualizzazioni che abbiamo ricevuto nel 2024 attraverso le piattaforme social. Un numero che ci ha lasciati senza parole, un segnale chiaro di quanto l'artigianalità e la lavorazione del vetro siano profondamente amate e apprezzate. Il vetro è un'arte ipnotica, vibrante, capace di catturare la luce e trasformarla in emozione. Ogni pezzo è un racconto, un frammento di energia che prende forma tra le mani dei nostri maestri artigiani. Sapere che milioni di persone nel mondo si sono fermate ad ammirare questa bellezza è per noi un'emozione indescrivibile. Siamo 8 miliardi su questa Terra e oltre 4 miliardi di volte qualcuno ha scelto di guardarci. È un dono immenso.
Grazie. Grazie a chi ci segue, a chi si lascia ispirare, a chi porta nelle proprie case la magia del vetro.

4,594,739,302 times, thank you.

That's the number of views we received in 2024 across social media platforms. A number so incredible it left us speechless. It proves how much craftsmanship and glass artistry are truly loved and appreciated. Glass is a hypnotic, vibrant art-one that captures light and transforms it into pure emotion. Every piece tells a story, a fragment of energy shaped by the hands of our master artisans. Knowing that millions around the world have paused to admire this beauty is beyond words. We are 8 billion on this planet, and over 4 billion times, someone chose to watch us. It's an overwhelming gift.
Thank you. Thank you to those who follow us, to those who find inspiration in our work, and to those who bring the magic of glass into their homes.

Sylcom: dove il vetro diventa storia

In Sylcom, ogni pezzo nasce da un gesto antico e da una visione contemporanea. Tutto comincia con la sabbia, quella materia semplice e silenziosa che custodisce in sé il potenziale della luce. Attraverso la fusione, prende forma una materia viva, pronta a essere modellata con tecniche tramandate da generazioni: il soffio dell'artigiano, la lavorazione in piastra, i dettagli artistici. La moleria aggiunge precisione, rivelando le sfumature nascoste, mentre l'imbossolamento artigianale e il montaggio si occupano di comporre ogni parte come una sinfonia. Persino l'impianto elettrico, spesso invisibile, diventa per noi parte di questo racconto, perché ogni componente ha il suo ruolo nella creazione di un oggetto che non è solo funzionale, ma carico di significato. Ogni pezzo Sylcom è il risultato di mani che lavorano con umiltà e occhi che cercano la bellezza nei dettagli. Il nostro non è solo un processo produttivo, ma un dialogo continuo con la materia, con la tradizione e con le persone che scelgono di accogliere il vetro nelle loro vite.
Sylcom non crea semplicemente oggetti: crea connessioni. Con la luce, con gli spazi, con chi si lascia ispirare.E nel farlo, portiamo avanti una storia tutta italiana, fatta di passione discreta, rispetto per l'arte e il desiderio di trasformare ogni creazione in un'emozione.

Sylcom: where glass becomes a story

At Sylcom, each piece begins with an ancient gesture and a contemporary vision. It all starts with sand-a simple, quiet material holding within it the potential for light. Through fusion, it becomes a living substance, ready to be shaped by techniques passed down through generations: the artisan's breath, plate processing, and artistic detailing. Grinding refines its hidden nuances, while manual boxing and assembly orchestrate each part like a symphony. Even the electrical system, often unseen, becomes part of this narrative, because every component plays its role in creating an object that is not merely functional but rich with meaning. Every Sylcom creation is the result of hands working with humility and eyes seeking beauty in the details. Ours is not just a production process but an ongoing dialogue with the material, with tradition, and with the people who choose to embrace glass in their lives. Sylcom does not simply make objects-it creates connections. With light, with spaces, and with those who find inspiration in our work. In doing so, we carry forward an Italian story, one of understated passion, respect for artistry, and the desire to turn every creation into an emotion.

ALISETTE - FABRIC DIFFUSER

La collezione ALISETTE è proposta con diffusori in 2 varianti di trama e 4 colori. I paralumi, tutti in tessuti certificati, sono stati selezionati dalla Ricerca & Sviluppo Sylcom, per garantire con la qualità dei loro materiali durata e prestazioni nel tempo. Fonoassorbenti e resistenti al fuoco sono adatti anche ad ambienti collettivi.

The ALISETTE collection is offered with diffusers in two different weaves and four color options. The lampshades, all made from certified fabrics, have been carefully selected by Sylcom's Research & Development team to ensure long-lasting quality and performance. Sound-absorbing and fire-resistant, they are also suitable for public and shared spaces.

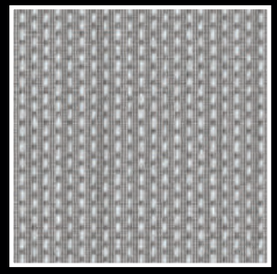

B
Tessuto bianco traslucido con sfondo a tinta unita trasparente e filo verticale a contrasto; composizione poliestere e poliestere reciclato

Translucent white fabric with a solid transparent background and contrasting vertical thread; composition: polyester and recycled polyester

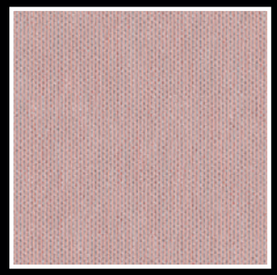

G
Tessuto grigio traslucido con sfondo a tinta unita trasparente e filo verticale a contrasto; composizione poliestere e poliestere reciclato

Translucent grey fabric with a solid transparent background and contrasting vertical thread; composition: polyester and recycled polyester

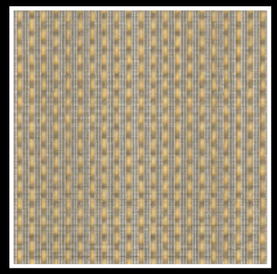

R
Tessuto traslucido effetto lino rosa; composizione 100% poliestere con trattamento antifiamma

Translucent sound-absorbing fabric with a pink linen effect; composition: 100% polyester with flame retardant treatment

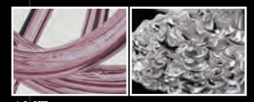

O
Tessuto dorato traslucido con sfondo a tinta unita trasparente e filo verticale a contrasto; composizione poliestere e poliestere reciclato

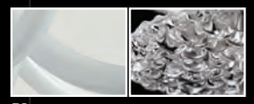

Translucent gold fabric with transparent solid background and contrasting vertical thread; composition: polyester and recycled polyester

BON BON - FABRIC DIFFUSER

La collezione Bon Bon si distingue per i suoi raffinati diffusori in tessuto, disponibili in tre varianti di trama e colore e in due dimensioni. Frutto della Ricerca & Sviluppo Sylcom, sono realizzati con materiali di alta qualità per garantire durata e prestazioni nel tempo.
I paralumi, in tessuto di puro cotone rivestito con resine acriliche, sono certificati e innovativi, ideali anche per ambienti collettivi grazie alle seguenti caratteristiche:

- Lavabili e disinfettabili
- Impermeabili e non assorbenti
- Atossici
- Inalterabili alla luce
- Ignifughi (non propagano né alimentano la fiamma)
- Non rilasciano sostanze volatili nocive

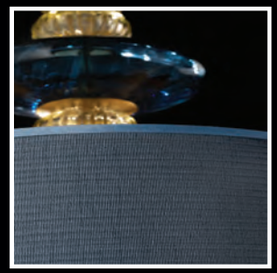

The Bon Bon collection stands out for its refined fabric diffusers, available in three texture and color variants and two sizes. The result of Sylcom's Research & Development, they are made from high-quality materials to ensure long-lasting performance.
The lampshades, made from pure cotton fabric coated with acrylic resins, are certified and innovative, ideal even for public and commercial spaces thanks to the following features:

- *Washable and disinfectable*
- *Waterproof and non-absorbent*
- *Non-toxic*
- *Inalterabile to sunlight*
- *Flame-retardant (do not propagate or feed flames)*
- *Do not release harmful volatile substances*

BLU

Tessuto con texture a nervatura verticale; puro cotone con spalmatura vinilica e stampato.

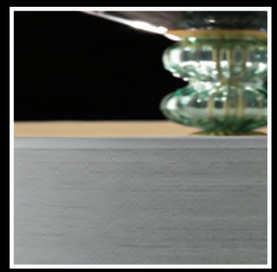

Fabric with vertically ribbed texture; pure cotton with vinyl coating and printed.

AZ

Tessuto con disegno fine ad effetto setoso; puro cotone con spalmatura vinilica e stampato.

Fabric with fine silky-effect pattern; pure cotton with vinyl coating and printed.

AVO

Tessuto con effetto tridimensionale; puro cotone con spalmatura vinilica e stampato.

Fabric with three-dimensional effect; pure cotton with vinyl coating and printed.

DISORIS - FABRIC DIFFUSER

La collezione DISORIS si distingue per i suoi raffinati diffusori in tessuto, disponibili in 3 varianti di trama e 5 colori realizzati con materiali di alta qualità per garantire durata e prestazioni nel tempo.
I paralumi , tutti in tessuti certificati, sono adatti anche per ambienti collettivi.

The DISORIS collection stands out for its refined fabric diffusers, available in three texture variants and five colors, they are made with high-quality materials to ensure durability and consistent performance over time.

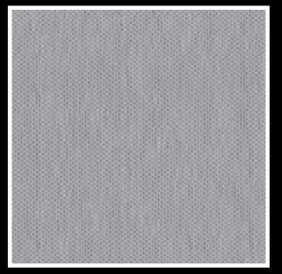

A
Tessuto fonoassorbente tra-slucido effetto lino argentato; composizione 100% poliestere con trattamento antifiamma

Translucent sound-absorbing fabric with a silver linen effect; composition: 100% polyester with flame-retardant treatment

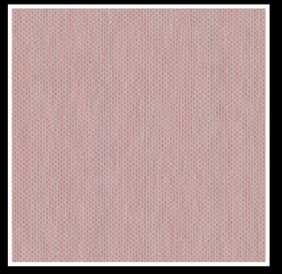

G
Tessuto fonoassorbente traslucido effetto lino grigio; composizione 100% poliestere con trattamento antifiamma

Translucent sound-absorbing fabric with a grey linen effect; composition: 100% polyester with flame-retardant treatment

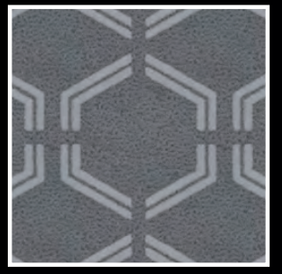

R
Tessuto fonoassorbente traslucido effetto lino rosa; composizione 100% poliestere con trattamento antifiamma

Translucent sound-absorbing fabric with a pink linen effect; composition: 100% polyester with flame-retardant treatment

SQ
Tessuto resistente al fuoco con geometrie floccate su base metallica; composizione 70% pasta di legno / 30% poliestere

Flame-resistant fabric with flocked geometric patterns on a metallic base; composition: 70% wood pulp / 30% polyester

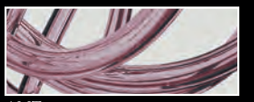

S
Diffusore con rivestimento in 100% seta, aspetto opaco e fiammatura orizzontale con tonalità irregolari; tessuto resistente al fuoco e alla luce

Diffuser covered in 100% silk with a matte appearance and irregular horizontal slub texture; flame- and light-resistant fabric

EPHIRA - FABRIC DIFFUSER

La collezione EPHIRA è proposta con diffusori in 3 colori realizzati con un tessuto caratterizzato da grafica netta con forte effetto tridimensionale; la composizione è in puro cotone con spalmatura di monomeri vinilici, stampato con inchiostri a base acquosa.
I materiali sono certificati e innovativi, ideali anche per ambienti collettivi grazie alle seguenti caratteristiche:

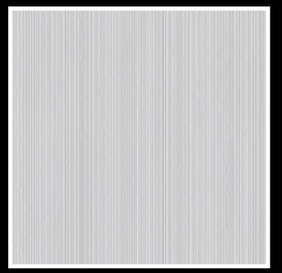

- Lavabili e disinfettabili
- Impermeabili e non assorbenti
- Atossici
- Inalterabili alla luce
- Ignifughi, conformi alle normative UE (non propagano né alimentano la fiamma)
- Non rilasciano sostanze volatili nocive

The EPHIRA collection features diffusers in three colors made from a fabric characterized by bold graphics and a strong three-dimensional effect. The composition is pure cotton with vinyl monomer coating, printed using water-based inks.
The materials are certified and innovative, making them ideal for collective environments thanks to the following properties:

- *Washable and disinfectable*
- *Waterproof and non-absorbent*
- *Non-toxic*
- *Light-resistant*
- *Flame-retardant, compliant with EU regulations (do not propagate or feed flames)*
- *Do not release harmful volatile substances*

B
Tessuto bianco lavabile, ignifugo, atossico, fonoassorbente

White fabric: washable, flame-retardant, non-toxic, sound-absorbing.

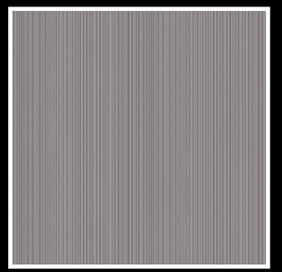

N
Tessuto nero lavabile, ignifugo, atossico, fonoassorbente

Black fabric: washable, flame-retardant, non-toxic, sound-absorbing.

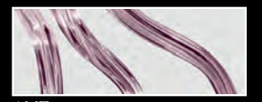

R
Tessuto rosa lavabile, ignifugo, atossico, fonoassorbente

Pink fabric: washable, flame-retardant, non-toxic, sound-absorbing.

length structure with a strong three-dimensional effect; pure cotton composition with fully polyme-

Special Thanks
A chi custodisce la luce nel vetro,
e a chi ne riconosce il riflesso.

To those who cradle light within glass,
and to those who recognize its reflection.
