Lighting Lab is the name of our most experimental catalogue.
A vibrant, ever-evolving collection that explores the endless possibilities of the encounter between glass and metal.
A laboratory of ideas translated into shapes, textures, surfaces, and lights that interpret space with freedom and personality.

In Lighting Lab, every piece is the result of a refined search.
An aesthetic and technical investigation, where noble materials meet light geometries, refined finishes, and artisanal craftsmanship.
Glass – in its many variations: transparent, matte, colored, fumé – enters into dialogue with metal in all its forms: polished, satin, bronzed, gold, black.
The result is a series of luminous objects with a contemporary soul – sometimes bold and essential, sometimes playful and unexpected, but always distinctive.

Lighting Lab is designed for those who seek unconventional solutions, suitable for both contract and residential spaces, able to adapt and engage with a variety of contexts – from minimal elegance to theatrical flair.
It's a growing, open collection, ready to be interpreted and customized. Each combination tells the story of an idea, a vision, an emotion.

Not just a catalogue, but a creative map to explore new dimensions of light.
A light that is never merely functional, but expressive, distinctive, and deeply intentional.

Stillux

LIGHTING LAB

The future is full of possibilities. It invites oneself to create, to go beyond, to excel in order to satisfy the customer. It inspires a winning mentality. Future and Tradition: rather than concepts in contraposition, they are realities which feed on each other thanks to an exceptional savoir-faire, combined with innovation, creativity, aesthetic sensibility and ethics. By saying Future of Tradition, we share the desire to seduce with products and services of the best quality, continually adopting an innovative approach to our crafts. In a continuous search for excellence.

Stillux

LIGHTING LAB

A family of wall lamps that embodies the beauty of simplicity: the clean lines of the metal structure blend with the elegance of Stillux's exclusive glass, crafted to emit a soft, enveloping light. Each model - 21019, 21020, 21021 - is designed to create warm, timeless atmospheres. Perfect for enhancing walls that speak a language of light, emotion, and authentic Italian design.
